Abacus Payroll, Inc.

Happier Employees

Increase engagement and make more efficient use of resources by giving employees greater control of their time. The TC Elite is more than a time clock. Employees can easily track their time, and employers capture productivity trends that inform better business decisions and work policies that support a mobile, agile workforce.

Wifi available

Development kit allows developers to quickly and easily create custom applications.

Supervisor override with interval checking to prevent time punches within the same time period.
